## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because need to have proper labeling of all the elements shown. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claims 1- 23 are objected to because of the following informalities and for clarification purposes , it is suggested to applicant,

In claim 1 line 8 , line 23 replace "the said flow" with -said flow-, in line 13 and line 16 replace "the said first" with -said first- , in line 28 replace "the said second" with -said second- , in line 33 replace "the next section" with -a next section- and "the said" with -said-.

Claim 12 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should be in the alternative form. See MPEP § 608.01(n). Accordingly, claim 12 , depending from claims 11 and 8, has not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 and 13- 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 lines 20 and 21 is unclear if "a first host interface" and " a host" is referring back to " a host interface " in line 12, or referring to a separate host element?

***Conclusion***

- US patent no. 5,553,061 discloses a Packet processor having service priority features.
